## Portable Battery Slider Plate

Portable Slider Plates shown here in the SE48-1616 Battery System Enclosure

- Designed for use with SE48-1616 Traffic BBS Enclosure
- Locks into cabinet shelf allowing easy installation and removal of batteries
- Up to (2) AlphaCell 220GXL Case 31 batteries supported on one plate

Alpha's Portable Battery Slider Plate is a simple, low-cost solution designed specifically for the Alpha SE48-1616 (formerly S6) Battery Backup System Enclosure. It locks easily onto the cabinet providing greater ease of battery installation, maintenance and replacement, whenever a technician accesses batteries. Think less back injuries and crushed fingers.
