

## EAGLE VPS-150 POWER SUPPLY 1.5 AMP "RACK MOUNT"

The EAGLE VPS-150 Power Supply is built on international format cards with gold edge connector fingers. Each power supply channel will supply 24 VDC nominal at 0.75 amp when connected to a 115 VAC line.

Each channel is protected by a 0.75 amp Slo-Blo fuse which is accessible on the front panel. A red LED indicator is provided for each channel to allow a visual check of the fuse condition.

The EAGLE VPS-150 is the ideal power source when using high current devices such as video detection cards.

### Features & Specifications

**Input Voltage:** 90 to 135 VAC, 60 Hz

**Output Voltage:** Unregulated D.C. output voltage -  
■ 14 VDC nominal at 0.5 amp, 90 VAC  
■ 20 VDC nominal at 0.5 amp, 115 VAC  
■ 24 VDC nominal at 0.5 amp, 153 VAC

**Output Indicators:** A red high intensity LED indicator is provided for each channel to allow a visual check of the fuse condition.

**Power Switch:** Switches power to all channels.

**Dimensions:** 4.500" H x 2.000" W x 6.875" D

**Weight:** 2.75 lb.

**Connector:** Double-sided 44-pin with gold contact fingers.

Connections:	Pins	VPS-150
	A & 1	D.C. Common
	B & 2	Channel 1 D.C. Output
	C & 3	Channel 2 D.C. Output
	L & 10	Chassis Ground
	M & 11	Neutral
	N & 12	A.C. Line
	U & 17	Channel 3 D.C. Output
	V & 18	Channel 4 D.C. Output
